RE: A-TEC Recycling

Patty's recent letter concerning A-TEC's request for transporter licence in Missouri, requested information as to this facility's enforcement history. I called Patty today to let her know that as far as RCRA information, all we show in the CM&E module of RCRIS is that the facility is an LQG and transporter, and that they received a Compliance Assistance Visit (CAV) in April 1995. Patty thanked me for the information.
